Members can register for any upcoming event by clicking on the 'Register now' link for the webinar they are interested in attending. Once a webinar has been delivered, members will be able to click on the same link to 'Watch on demand'. Clicking on the link will take members through to the BrightTalk platform, which we're using to deliver these events. If members haven't already registered with BrightTalk, they'll be asked to set up a BrightTalk account. They only have to do this once. When registering for any subsequent events on BrightTalk, once they've logged in, they'll go straight to the registration page for that event. Members can amend their BrightTalk [email preferences](#) at any time.

Please note that the Autumn webinars will be delivered as 'studio style' events.
